SECURITY SPECIFICATIONS & TESTS

This S4SS35 Trident Solar Control film meets the same security specifications and test results as SEC 04. Please refer to the SEC 04 "Security Specifications & Tests" chart for the itemized data.

SOLAR SPECIFICATIONS

Solar specification testing performed on film mounted to 1/8" (3mm) Starphire® Ultra-Clear glass. Tests, equipment and methods are in accordance with ASTM, ANSI and NFRC standards. Calculations performed using Lawrence Berkeley Lab's Optics/Window 5.2. Values expressed hereof are typical and provided for comparative purposes only.
